

COMPOSITE

CLASSICS

Our Composite product line provides design flexibility for both metal wall and roof applications. Used as a siding application, Composite prints add texture and depth offering beauty to any building envelope.

A solution to the traditional asphalt shingle, Composite prints used in a metal roof application will last three times longer, offer energy savings, is more resistant to wind and hail, and is environmentally friendly.

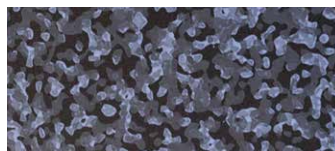

Design Solutions Composite prints can create a distinct look that will transform your project. With six prints to choose from, your creative options are exciting.
