

STEELSCAPE Natural Matte® PVDF Coating Technology Limited Warranty

Steelscape, LLC ("Steelscape") warrants that **Steelscape Natural Matte® PVDF** coated metal, when coated by 70% PVDF coating technology on Steelscape TruZinc® Steel, ZINCALUME® Steel or Aluminum ("Coated Metal"), and when purchased by Steelscape's customer ("Purchaser"), will retain its film integrity, color and chalk as set forth in the Warranty Table below, provided the Coated Metal has been stored, transported, formed and installed in adherence to the exclusions and limitations portion of this limited warranty.

Definitions

For the purposes of this limited warranty, the following terms shall have the meanings set forth below:

1. "Film Integrity" means the absence of peeling, checking, chipping or cracking, except for such crazing or slight cracking as may occur on tightly roll-formed edges or brake bends at the time of forming Coated Metal.
2. "Color Change" means freedom from fade or change as warranted in ΔE units calculated in accordance with ASTM D2244, paragraph 6.2.2 CIE L*a*b*, 10° observer, specular included. Color change is measured on an exposed painted surface that has been cleaned of surface soils and chalk (per ASTM D3964) and then compared to corresponding values measured on the original or unexposed coated surface.
3. "Chalk or Oxidation" means a numerical rating as warranted when measured in accordance with the standard procedures specified in ASTM D4214.
4. "Non-conforming Coated Metal" means Coated Metal that has not retained its film integrity, color and chalk as set forth in the Warranty Table provided the Coated Metal has been stored, transported, formed and installed in adherence to the exclusions and limitations portion of this limited warranty as determined solely by Steelscape.

Warranty Period

This limited warranty applies to any **Steelscape Natural Matte® PVDF** coated metal shipped after October 1, 2025 and no previous warranty shall apply to such product. The limited warranty is effective from either the date of installation of the **Steelscape Natural Matte® PVDF** coated metal or six (6) months after coating of the metal, whichever occurs first, for the period of time set forth in the Warranty Table below.

Remedies

Steelscape's sole obligation in the event a Purchaser submits a valid claim for Non-conforming Coated Metal shall be limited exclusively to, in Steelscape's sole option, either (1) the cost of repairing or replacing Non-conforming Coated Metal, or (2) refund of the purchase price for any Non-conforming Coated Metal to the Purchaser. In the event Steelscape elects to satisfy its obligations under this limited warranty by paying the cost to repair Non-conforming Coated Metal, Steelscape must approve any recoating of the Coated Metal through submission of three (3) estimates that each includes the name of the coating products to be used, labor and material costs, and any other costs associated with the work for refinishing or replacing the Coated Metal. Steelscape reserves the right to approve or negotiate the contract for such recoating if the initial estimate is deemed unacceptable. In no event will the original applicable warranty period set forth in the Warranty Table (see below) be extended by a warranty claim or any other costs associated with the work for refinishing or replacing the Coated Metal. In the event of any subsequent failure of any recoated or replaced Coated Metal, Purchaser shall first make any claims against the supplier of those replacement materials. The warranty period for any refinished or replaced metal substrate shall be only for the remainder of the original Coated Metal's warranty period.
