

PROJECT SPOTLIGHT: NORTH GRESHAM ELEMENTARY SCHOOL GRESHAM, OR

This collaboratively developed school instills pride among teachers and students with its commanding yet memorable design. The design focuses on dynamic circulation, which creates student gathering spaces and provides students with a variety of pathways, both physically and academically.

The façade extensively features Steelscape's Vintage® finish on a box ribbed panel. The classic aged appearance of Vintage works in concert with other siding panels to add texture, and to contrast the rich red brick siding elements. The Vintage finish further helps this design endure the test of time with its standard anti-graffiti finish.

Architect: BBT Architects

Installer: Skyline Sheet Metal
