

PROJECT SPOTLIGHT:

SPRUCE ELEMENTARY

LYNNWOOD, WA

This memorable project features a flexible and lively campus for its diverse community. The 81,000 sq ft school includes classrooms, a gymnasium, student support facilities, and music rooms. A key feature of the design is a central second-floor library, designed to act as a safe and inspiring haven for students.

The building features Steelscape's Burnt Rust finish, which provides a warm color that connects the building to the surrounding grove of mature trees. This finish, paired with the varied lines of a concealed fastener metal siding, add texture and shadow to the modern, functional design. Burnt Rust was the preferred finish for this project as it provides the fresh rust glow of a traditional oxidized product without any of the long-term maintenance issues, such as rust runoff or staining.

Architect: Bassetti Architects

Installer: King Sheet Metal
