

PROJECT SPOTLIGHT:

PORT OF KALAMA INTERPRETIVE CENTER

KALAMA, WA

Positioned on the banks of the Columbia river, lies this captivating take on a traditional waterfront warehouse. The building provides an operations center for the port and a home for the region's rich history.

Steelscape worked collaboratively with the Port of Kalama to develop finishes ideal for their waterfront interpretive center. This re-imagined design features Steelscape's Burnt Rust and Weathered Zinc finishes. These colors recreate the warmth of fresh rust and the timeless metallic glow of aged zinc. The two colors complement other featured materials including stone and exposed metal, to create a harmonious design.

Architect: Collins Architectural Group
