

## AN AGED METALLIC LOOK...WITHOUT THE WAIT

### Vintage®

Vintage is an innovative prepainted metal product which provides warmth and character. A proprietary coating ‘pre-ages’ Steelscape’s TruZinc® metallic coated steel surface producing a beautiful and durable finish that is also graffiti resistant.

The combination of pigmentation and gloss is what gives our Vintage coated metal a dynamic and aged appearance and has become a top choice for architects and designers. Vintage coated metal is ideal for roofing and siding applications, as well as unique interior applications.

**Achieve your design vision with the durability and affordability of steel.**

Vintage is produced in G90 metallic coating weight and comes with a limited warranty.
